

DELEGATE UNIT

TS - 922(Y)

■DESCRIPTION

The TS-922 is a Delegate unit of the Infrared Conference system. Since the system is cordless, it can be easily installed and removed. It can be operated on either the AD-0910 AC adapter or the BP-920, BP-900A lithium—ion battery. It is equipped with a remaining battery indicator. Two types of dedicated microphones are made available for the TS-922 as optional products: the TS-923, TS-903 standard type and the TS-924, TS-904 long type.
